

OHIO WILL FINANCE THE FIGHT AGAINST CHOLERA

FAYETTE IN LINE FOR GREAT BENEFITS IF SHE WILL ACT

The great State of Ohio is anxious to know positively whether or not it is within the power of man to stamp out forever the scourge of hog cholera that annually sweeps thousands upon thousands of hogs from her farms.

For a number of years the state has endeavored to stay the progress of the disease through the manufacture and distribution of a serum and virus by the use of which hogs are rendered immune for long periods of time.

Results thus attained have been highly satisfactory, but the use of the remedy has not been general, consequently large losses from cholera continue each year.

Last year the ravages of the disease were disastrous in the extreme throughout the state, especially so in a few counties which were almost depopulated of hogs.

Fayette county, unfortunately, was included in the list of counties which suffered most. Something like 34,000 head of hogs succumbed in this county alone last year, entailing a loss that affected not only the hog raisers, but all kinds of business as well.

This condition of affairs aroused the state. Among the first to take cognizance of the alarming spread of the disease was the State Board of Agriculture, of which Mr. Jesse Cross, of this city, is a member. This board laid the facts before the state legislature at the recent session, and asked for an appropriation of \$25,000 with which to enter into the worst cholera stricken county of Ohio and make a test of the value of the anti-hog cholera serum and virus, and to determine if possible whether the disease can be stamped out. Legislators were interested at once and in a short time a bill was passed appropriating \$20,000 for the purpose outlined.

The money is now available. Several counties that have felt the hardships caused by colossal losses incident to a cholera scourge, are very desirous of becoming the testing territory.

It's up to the people!

Fayette county can avail herself of this opportunity if she will. Her record as a hog-cholera breeding section now stands her in good stead. Probably no other county can quite equal the losses sustained in Fayette, but if the citizens of this county do not step lively some other county may slip in and get the benefit of the appropriation and the test.

We have received word that Fayette county is viewed favorably by members of the State Board of Agriculture, but in order to secure unanimous action it has become necessary that petitions be circulated, asking the board to select this county for the test.

These petitions should be universally signed by farmers and business men in order that we make sure of the incalculable benefits that will certainly follow the Herculean efforts of the state to stamp out the disease in Fayette county.

Petitions will be ready for circulation within a day or two. Some will be placed in business houses, others will be carried by individuals.

Sign them and get others to sign and if you are intensely interested in the welfare of Fayette county and her people, carry a petition and get signers at once.

Let everybody pull together for this one thing.

Kirby Rewarded by Manufacturers For Battle Against Unions.

Detroit, May 22.—A check for \$10,000 was handed John Kirby, 45, of Dayton, the retiring president of the National Manufacturers Association. Resolutions adopted at the annual convention in Detroit, which Kirby presided over, were in recognition of his efficiency as president and his battles against militant labor unionism, which have been as effective as those of any other one man in the country in establishing the principle of the open shop.

Resolutions were adopted urging the establishment of a federal department of manufactures, denouncing the principle of the closed shop, and urging adequate protection for all American industries.

DYNAMITE USERS ARE THRILLED BY OPEN CONFESSION

DYNAMITE PLANTER TAKES THE STAND

Testifies He Received Money From One of Defendants.

Boston, May 22.—John J. Breen, a Lawrence undertaker, and at that time a member of the Lawrence school board, who was fined \$500 for "planting" dynamite in various places of that city during the textile strike of 1912, took the stand at the trial of President William B. Wood of the American Woolen Company, Frederick E. Atteaux and Dennis J. Collins, for conspiring to plant the explosive, and said he received \$700 from Atteaux for doing the job, having received the dynamite from Ernest W. Pitman, now dead. Under cross-examination of Attorney Coakley, counsel for Atteaux, questions were asked which indicated that the defense, so far as Atteaux was concerned, intends to implicate that this testimony was actuated by motives of blackmail.

"After you had been convicted last July, you went to Atteaux and demanded \$12,500, didn't you?" shouted Coakley at the witness, after about two hours of other questioning.

"Yes. Di Prato and the other Lawrence people who had been arrested when the dynamite was found, had brought civil suits against me. Mr. Atteaux said he could settle with Di Prato for \$5,000 and for \$1,000 with the others."

"Well, you later offered to take \$700 from Atteaux, didn't you?"

"I received an offer from you, his lawyer, of \$7,000," responded Breen. Witness in reply to further questions admitted he had refused to take this \$7,000 from the lawyer under the conditions the lawyer imposed.

"Let us have the conditions," said Attorney Coakley.

"You told me to put the most of the money in my pocket and settle with the poor slobs in Lawrence as cheaply as I could. I refused to do any such thing."

State Department Has Reassuring Reports From Japan.

BRYAN'S REPLY WELL RECEIVED

Japanese Ministers Said to Appreciate Fully the Sincerity of the Washington Government's Efforts to Prevent Discrimination Against the Mikado's Subjects in the States—Jingo Sentiment Dying Out.

Washington, May 22.—Reports received by the state department from United States representatives in Tokyo brought encouragement to the administration in regard to the Japanese situation. President Wilson has had the greatest faith from the first that some way for a diplomatic settlement of the California alien land law controversy would be found, and late developments have given him additional ground for hope.

One of the reports to the state department was from a diplomatic representative of the United States, who discussed the situation informally with members of the Japanese ministry following the receipt by them of the American reply to Ambassador Chincha's formal protest against the California legislation. This report brought to the president and Secretary of State Bryan expressions of a confidence by the Japanese representative that the Japanese ministers fully appreciate the sincerity of this government's efforts to prevent a discrimination against Japanese subjects through the California law and also the domestic difficulties which the United States officials have encountered in dealing with the state government involved.

The Japanese official attitude, as voiced at this time, was not to hold the American administration as strictly responsible for the California law, as would have been the case had the difficulties arising from the internal structure of this government been less conspicuous. The Japanese ministers also conveyed the information that an abatement of the jingo sentiment among the Japanese had been noted by them.

Both the president and Secretary Bryan were impressed by the tone of this report, and their hopes for a satisfactory adjustment of the controversy through diplomatic channels were strengthened.

Other persons in Washington more familiar with foreign affairs and with the far east have not shared the president's optimism, and frankly continue to regard the present negotiations, involving as they do the question of national honor for Japan, as marking a crisis in the situation between Japan and the United States, if not the entire western world.

HUMPHREY CLAIMS HE WAS FORCED TO KILL

Ohio Railroader Admits Killing West Virginia Miner.

Columbus, O., May 22.—After a grilling by detectives, Leslie Humphrey, a railroad brakeman, admitted he killed Samuel E. Kelly, a Lanark (W. Va.) miner, whose dead body was found on East Fifth avenue on the morning of May 8. His throat had been cut and his right side punctured by a bullet which penetrated his heart. A sum of money, estimated to have been as high as \$400, was missing.

The confession of Humphrey came when Detective Deagan confronted him suddenly with the watch of the dead man, which had been taken from a vault in the rear of the house at 1092 Bennett street which Humphrey occupied at the time of the tragedy. Humphrey in his confession makes a claim of self-defense.

COX TO ANSWER CRITICS

Columbus, O., May 22.—Governor Cox is preparing a vigorous reply to Senators East of West Virginia and Gallinger of New Hampshire. They vehemently denounced Governor Cox for his attitude in refusing to send the Ohio National Guard to Cincinnati during the street strike at the first request of Mayor Hunt. The governor takes the position that had it not been for the militia, it is a good chance that there would have been prolonged trouble.

Columbus, O., May 22.—Two Democrats were appointed by Governor Cox to take the places of Republican state bank examiners, M. F. Kearns of Youngstown to succeed Ira H. Evershart of Canton and H. C. Lucas of Blanchester to succeed Norman K. Stillwell of Lebanon.

Governor Cox announced additional appointments to membership of non-partisan boards. They were J. N. Smith, Washington county, vice W. D. Tremper, Republican, Scioto county.

EQUALIZATION ON 'IMPORTANT ARTICLES WILL BE ATTEMPTED

WOULD FREE-LIST RAW MATERIALS

Democratic Senators Will Revise the Underwood Bill.

SOME VITAL CHANGES SOUGHT

Senate Finance Subcommittee Determined to Equalize Live Stock and Grains and Their Respective Products—Agreed That If Cattle and Grain Are to Remain Dutiable, So Shall Meats and Flour.

Washington, May 22.—Determined to equalize live stock and grains and their respective products in the Underwood tariff bill has been reached by the senate finance subcommittee concerning the agricultural schedule. It has been agreed that if cattle, sheep, hogs, wheat and oats are to remain dutiable, as the Underwood bill classifies them, then a duty shall be placed on beef, mutton, pork, wheat flour and oats, or if these products are to remain on the free list, the raw materials will be put into the free list.

This is the first basic tariff change to be planned by senate Democrats since the Underwood bill came from the house.

Whether raw materials and their products are to be free-listed or all are to be made dutiable has not been determined, but that all would be treated alike was asserted by Senator John Sharp Williams, chairman of the subcommittee, which has the schedule in hand.

The decision to equalize these schedules, it also was reported, had

been reached with the knowledge of the president, and no, without his approval.

When Senator Williams was told of a report in circulation that his committee had decided to put all live stock and grains on the free list in keeping with their products as they were treated in the Underwood bill, he declared that there was no ground for such a report. "But," declared the senator, "there is this much about it. If cattle, sheep and hogs are to remain dutiable in this bill, then the products will carry a duty. The same is true of wheat, oats, flour and oat meal. But we have not determined whether they shall be dutiable or undutiable."

The fight over this feature of the Underwood bill began in the house, and there was considerable Democratic opposition to the free listing of farm products while the raw material was left dutiable.

Some Democrats predicted during the debate that the senate would change the schedule, most of them asserting that live stock and grains would go on the free list. Whatever the subcommittee does in the matter is expected to meet with the approval of the finance committee majority.

It was learned that Senator Walsh of Montana plans to introduce an amendment in the senate to put cattle on the free list if the bill is presented without such a change.

IMPORTATION A FELONY

RAPS THE HOOK AND EYE

Ohio Congressman Says Woman Is a Slave to Clothes.

Washington, May 22.—Representative Bowdye of Cincinnati, O., who succeeded Nicholas Longworth, son-in-law of Theodore Roosevelt, in the house, is an active opponent of equal suffrage. Also he is bitterly opposed to "hooks and eyes" for dresses.

"The suffragists," said Bowdye, "are still harping on emancipation for women. The first step in this direction should be emancipation from the slavery of clothes. Take the hook and eye, for instance. When the tariff revision was up in the house and the hook and eye item was reached someone suggested putting a prohibitive duty on the abomination. I objected. I argued that a heavy duty did not meet the situation. I suggested that the importation of hooks and eyes from other countries be made a felony, and their manufacture in this country a capital crime."

TIME IS DRAWING NEAR WHEN THE FARMER BOYS MUST MAKE A DECISION

MORE TRIPS THAN BOYS
IN FAYETTE COUNTY

Time for Entering Corn Growing Contest for Free Trip to National Capital Ends June 1st, and Farmer Lads are Urged to Act at Once—Come to Herald Office for Necessary Information.

There is plenty of room for more farmer boys to enter the corn growing contest and secure one of the coveted trips to Washington, D. C., next fall, or obtain one of the many prizes offered for the best acre of corn grown in Fayette county and the state.

The honor of raising a banner acre of corn is, in itself enough to appeal to any energetic lad, but when the additional honor and pleasure of the free trip to the nation's capital is added to the honor of "beating dad" and others raising corn, it should appeal to every youth who expects to make a successful farmer of himself.

From a member of the Fayette Crop Improvement Association it is learned that there are more free trips obtainable in Fayette county than there are applicants for them. It is not the price of the trip that is wanting, but it is the farmer boy who will roll up his sleeves and dig after the coveted prize.

There is room for a score or more boys to enter the contest right here in Fayette county, and parents are urged to talk it over with their son or sons, and then have him to fill out the necessary blank before the entries close on June 1st.

If a boy who wishes to enter the contest will call at this office before June 1st the way will be fully explained to him.

So far Fayette county has not kept pace with sister counties in the number of boys entered in the contest. In all there are \$30,000 in free trips and prizes pledged in Ohio, and every dollar of the prizes go to the boys who get out and make a success of farming one acre of ground.

This year no boy can enter the free trip to the State Fair contest unless he is also in the corn or wheat growing contest.

A number of free trips have been offered to the Fayette farmer lads who hustle, and a number of other trips are available if the number of boys entered in the contest is increased.

Secretary A. P. Sandles advises the boys to act at once; to get busy and stay busy, and if successful in raising the largest yields, to enjoy the week in the east with other boys of their own standing.

Farmer boys are urged to act at once.

ANNUAL COMMENCEMENT AT JEFFERSONVILLE

Jeffersonville High school celebrated its nineteenth commencement on Tuesday night, when eight girls and one boy received well earned diplomas.

It has been a recent custom with this High school to put on a class play in lieu of the ordinary commencement program and that the play has met with popular approval has been proved by the crowded houses it has always drawn. Tuesday night Jefferson hall with over 700 seats was sold out and many turned from the doors.

The class of 1913 gave the play, "Cranford", a comedy taken from Mrs. Gaskell's story of that name. The scene was laid in England nearly a century ago and the stage settings and quaint costumes were of that period. The one boy of the class wore a broadcloth swallow tail suit sixty years old and Miss Roudsbush, the High school principal, who assisted the class, wore a wedding dress made half a century ago.

The characters were splendidly taken by the graduates, Misses Florence Compton, Anna Vannorsdall, Ruth Mowry, Mabel McCoy, Thelma Swiss, Lola Milburn, Christine Scott, Edith Rodgers and Brenton C. Zimmerman.

Miss Forrest Allen, of Millersburg, who has previously drilled the graduates in the class play, trained them for "Cranford", her excellent work showing fine results. The class labored under tremendous disadvantages during the first act; the electric lights burning out and plunging the hall in utter darkness.

The way the players rose above circumstances and carried out their roles with the stage dimly lighted with three oil lamps and candles, was highly creditable.

The music furnished by the Jeffersonville orchestra was splendid.

With brief words of commendation the president of the Board of Education, Mr. J. B. Davis, presented the diplomas.

The benediction was pronounced by Rev. B. B. Cartwright, of the M. P. church, who also delivered the baccalaureate sermon last Sunday night.

Superintendent M. E. Wilson had the entire commencement under his supervision. The class of 1913 almost rounds out an even half of the entire Jeffersonville High school alumni to graduate under Supt. Wilson's regime, which has been one of remarkable success. Supt. Wilson was the first superintendent to be elected for a three-year term in this

WILL TAKE NEEDED REST

The many friends of Dr. S. B. Alderson, former pastor of the Presbyterian church of this city, will be interested in the following article from the "Manchester Signal."

Dr. S. B. Alderson, who was pastor at the Second Presbyterian church at Portsmouth for eleven years, and a few years ago went from there to Tarkio, Mo., where he has since been pastor of the Tarkio Presbyterian church, preached his last sermon on Sunday, May 18, the fortieth anniversary of his starting in the ministry. Dr. Alderson has retired from the pulpit and expects to make his home in Topeka, Kan., where his son, Frank Alderson, resides. On May 18, forty years ago, Dr. Alderson preached his first sermon. Dr. and Mrs. Alderson have hosts of friends in Manchester who will be glad to know that he is able to take a rest after so many years of faithful work.

AIRDOME IS READY TO OPEN TOMORROW

If the weather is favorable Friday the new Airdome on the city lot on Market street, owned and managed by J. Edmund Smith, will open to the public, and will be an innovation in moving picture shows in this city.

The big open air theater is 100 feet long by 35 feet wide, and has a seating capacity of 500 to 600 persons. It is furnished with rustic benches and 24 feet of emergency exits guarantee protection.

The tan bark with which the floor is strewn, arrived Wednesday, and if the weather is favorable the first pictures will be shown tonight.

The moving picture machine is the latest style Edison, and one of great power.

Music will be furnished by a handsome new Electric orchestra, and is something entirely out of the ordinary in music for moving picture theaters. The instrument is said to have cost \$1500.

Mr. Smith states that he has visited a great many airdomes in the state, but he has beheld none that equals the one he has just completed in this city.

Mr. Reynolds, an experienced

operator from Columbus, will manipulate the machine.

The Ladies of Pocahontas lodge will give an entertainment, Friday evening, May 23, at Red Men's hall. Also serve refreshments. Admission 10c.

GROCCERS MAY ADOPT WEDNESDAY CLOSING

The advisability of closing their places of business on Wednesday afternoon is being considered by members of the local Retail Grocers' Association, and the prediction has been made that beginning within a short time the half-holiday will be observed by all or most of the grocery stores in the city.

The plan has apparently met with considerable favor, and formal action will probably be taken within a short time. The plan of giving their employees a half-holiday each week during the hot summer months is a new one in this city, but one which has been generally observed in other cities, and which has not caused any serious inconvenience to the public.

It is believed that the closing of the grocery stores will be the first step in a general closing for Wednesday afternoon during June, July and August.

For A Half Holiday

Today the movement for a weekly half holiday for Washington business men, clerks and mechanics during the hot months, assumed definite form and within a very few days time now, during which a whirlwind census of the business men will be taken, to ascertain their views on the subject, the people will then know whether this city is to be abreast of the times or not.

The wisdom, both from a humane and a business standpoint, of a weekly half holiday for business men has long since ceased to be a question. It is now a settled, demonstrated fact that the direct and indirect benefits of such a plan are decidedly evident in every community which recognizes the trend of the times to be in accord with the truism of the old nursery rhyme, "all work and no play makes Jack a dull boy indeed."

The business world these days holds no place for the dull man and no future for the dull boy. Wholesome recreation is as necessary to mind and body as food.

The weekly half holiday movement has much to recommend it and no good argument has yet been advanced in opposition to it.

As a matter of course, to be a success, such a plan must be universally adopted.

The prime movers in the effort to bring about the adoption of this progressive custom in Washington have great confidence that the business men will welcome the plan, and it is to be hoped that their faith is not misplaced.

A few days now will tell the story.

Teaching Sanitary Work

Dr. B. J. Lloyd, surgeon of the United States public health service takes no middle ground in his advocacy of teaching sanitary work. He believes in the work of keeping clean and free from disease and he believes that every one should be taught how to keep things sanitary and what to do in an emergency.

If it is good for a few people—experts so called—to know these things and if that knowledge is of almost inestimable value to mankind, it cannot be too widely made known. Everybody in every walk of life should know these wholesome truths.

In speaking on the subject a few days since, Dr. Lloyd said: "I would have compulsory education of priests and preachers in sanitary work, because I know if you once got the ecclesiastical conscience started on the right track you would hear it thundered from the pulpit as it ought to be; but so far that conscience is slumbering under the damning anesthetic of ignorance and unbelief."

"Finally, I would invade even the sacred precincts of the socialist and the I. W. W., who stand on the street corner on Sunday afternoon and harangue the gaping crowds in our large cities by sending good speakers to address such crowds, for they are the ones who need it."

And Dr. Lloyd is correct. Teaching the sense of clean, proper living should be a part of the work in every field of action.

You Learn Most Things After Leaving College

By Rev. Dr. JOHN HAYNES HOLMES of the Unitarian Church of the Messiah, New York

I HAD THE BEST EDUCATION MONEY CAN BUY IN THE UNITED STATES, YET ALL THE THINGS THAT ARE WORTH WHILE IN MATERIAL EXISTENCE I TAUGHT MYSELF AFTER I LEFT COLLEGE. THE THINGS I LABORED OVER IN THOSE YEARS AT PREPARATORY SCHOOL AND COLLEGE I NEVER TURN TO NOW EXCEPT FOR MY AMUSEMENT.

Culture is well, but I believe with Herbert Spencer that it is the business of education to TEACH THE CHILD SOMETHING ABOUT THE WORLD HE LIVES IN, NOT SO MUCH ABOUT KINGS AND THEIR CONSORTS. Culture does well as the dessert or the vegetables or the flowers, but the bread and meat, the nourishment of education, lies in teaching men what to do.

My one year of French and my one year of physics gave me only a BEGGARLY SMATTERING of these studies, and the failure to teach me German closed to me the door of the world's richest philosophical literature. I learned very little of English and American history, nothing of chemistry, astronomy, biology.

WE STILL HAVE IN EDUCATION THE BUGABOO THAT NOTHING IS WORTH WHILE UNLESS IT BEARS THE LABEL OF "CLASSICAL."

All knowledge was nothing unless it were made a tool to be used in the struggle of life.

Open Lamp Caused Explosion.

Zanesville, O., May 22.—State Mine Inspector J. C. Davies gave out a statement declaring that the Belle Valley mine disaster, which cost 15 lives last Saturday night in Noble county, was an explosion of gas which accumulated when an air current was changed and was ignited by an open lamp carried by a miner, who for some unknown reason penetrated 200 feet beyond his companions to a point where the gas had accumulated.

Postmaster at Warren, Ohio.

Washington, May 22.—Representative Bathrick of the Nineteenth Ohio district announced Lewis C. Brown for the Warren postmastership. Senator Pomerehne will acquiesce in the selection of Brown.

Kosher Butchers Aid Strike.

New York, May 22.—A meeting of 150 kosher butchers decided that they will side with the 200 members of the New York Poultry association and will refuse to slaughter any more poultry until there has been a thorough investigation into the stuffing of chickens' crops with gravel.

ENTERTAINS CLASS

A farewell reception was tendered her Sunday school class Wednesday evening by Miss Elva Hickel at her home east of this city, and the event proved one of rare enjoyment for both pupils and teacher. Every moment was filled with entertainment for the sixteen boys and girls present. Music, games and various contests caused the hours to fly quickly.

Punch was served throughout the evening, and a dainty three-course luncheon was enjoyed.

As the evening drew toward a close, Miss Hickel was very much surprised and pleased when a handsome piece of silverware was presented by the class, as a reminder of the love and esteem of the entire class.

INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

The mayor of Chicago has been much complimented lately on the new ordinance forbidding chauffeurs to blow their horns in the crowded parts of town. This rule of course throws upon the drivers of the car the whole work of avoiding contact with the foot-passengers. The mayor declares the right of the pedestrians is supreme. This is a fact in American common law which is often ignored by motoring folks.

An Idaho potato raiser sold his crop at 55 cents a sack. In the bottom of each sack he put a note requesting the ultimate consumer to let him know how much he paid for it. The replies varied from \$1.50 to \$2.50 a sack.

Maine is not a big state, but it produces more potatoes than any other state. Average yield for the United States is 106.1 bushels for Maine, 216.3 bushels. Only the Rocky Mountains have come anywhere near rivaling Maine as a potato country. Idaho comes nearest with 200 bushels to the acre. New York is the third potato state, yields 120 and Michigan 195 bushels. Probably 75 per cent of Maine potatoes are raised in Aroostook county. The value of the county's potato crop is \$166,000,000. Potato warehouses are proposed to systematize distribution.

Standard Oil of New York is to increase its capital stock to \$75,000,000 by declaring a 400 per cent stock dividend to present stockholders. Company also pays a cash dividend of \$6 per share on the same date, June 5.

A negro music festival is to be given the last of May in Chicago, which is said to be the first thing of its kind in the middle West. The program will be drawn exclusively from the works of negro composers and the choral and vocal compositions will all be settings of poems of negro authors.

A campaign was started among the women's clubs some 2 years ago for the erection of a great "Peace" statue at the Atlantic entrance of the Panama canal. Over 2,000,000 women are on record as being ready to help bring about its accomplishment. It is desired to build an allegorical figure to cost about \$500,000 as an emblem of the pacific nature and significance of the canal.

Another project which has been championed by several Congressmen is a statue to Balboa, the discoverer of the isthmus. A bill to this purpose has been introduced in the House and it is expected it will be brought before that body simultaneously with the peace statue bill.

The navy department will soon offer for sale the good old cruiser Newark. The vessel was built by the Cramp Company in 1888, costing \$1,284,000, and was first placed in service in 1891.

A GLIMPSE BACK THROUGH YEARS

(John E. M. Kerr.)

January 20, 1879.

The William H. Blakemore's lot on the corner of Fayette and Market streets, is about being purchased by the Catholics of this place for a site for a new church edifice.

Paint creek is in a disastrous flood condition, the waters being 12 inches higher than ever before. The railroad and telegraph is cut off and many bridges washed away, six being down between here and Morrow. The bridge at the cemetery is gone and the wrecks of two trains of cars are piled up in the creek bed. Fortunately no one was hurt. The damage is immense.

The Ladies' Social Circle of the M. E. church will be entertained by Sisters Dahl, Dews, Day, Daugherty and Draper, at the residence of Bro. George Dahl, on Friday evening next. Please notice the same, and oblige E. W. Jacobs, secretary.

We take pleasure to notify our customers in Fayette and adjoining counties that we have associated ourselves with a wholesale house in Cincinnati under the firm name of Bing, Steinhart and Co. New firm at No. 2, Kirk House block, Bing, Steinhart and Company.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 1 drop to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Take Hall's family Pills for constipation.

True and Untrue.
He was a dog.
But he stayed at home
And guarded the family night and day.
He was a dog.
That didn't roam.
He lay on the porch or closed the
shutters.
The tramps, the burglars, the
thieves,
For a dog's true heart for the
household beat.
At morning and evening, in cold
and heat.
He was a dog.

He was a man.
And didn't stay
To cherish his wife and his
children.
He was a man.
And every day
His heart grew callous, its love
beats rare.
He thought of himself at the close
of the day
And, cigar in his fingers, hurried
away
To the club, the lodge, the store,
the show.
But he had a right to go, you know—
He was a man. —The Advance.

THE POOR MAN'S CLUB.

The Poor Man's Club is a genial place—if the poor man has the price; there's a balmy smile on the barkeep's face, and bottles of goods on ice; the poor man's club is a place designed to brighten our darkened lives, and send us home, when we're halfway blind, in humor to beat our wives. So hey for the wicker demijohn, and the free-lunch brand of grub! We'll wassail hold till the break of dawn, we friends of the poor man's club! It's here we barter our bits of news in our sweat-stained hand-me-downs; it's here we swallow the children's shoes, and the housewives' hats and gowns. It's here we mortgage the house and lot, the horse and the muley cow; the poor man's club is a cheerful spot, so open a bottle now! From brimming glasses we'll blow the foam till the midnight hour arrives, when we'll gayly journey the long way home and merrily beat our wives. We earn our dimes like the horse or ox, we toil like the faltered steer, and then we journey a dozen blocks to blow in the dimes for beer. While the women work at the washing tub to add to our scanty board, we happily meet at the poor man's club, where never a soul is bored. We recklessly squander our hunted brawn, and the clubhouse owner thrives; and we'll homeward go at the break of dawn and joyously beat our wives. Walt Mason in Collier's Weekly.

French Liner Reported Wrecked in Smyrna Harbor.

Smyrna, May 22.—The French liner Senegal struck a mine, was blown up, leaving this port and was destroyed by the explosion. There were many passengers aboard. Those have gone to the rescue.

The Senegal belongs to the Messageries Maritimes. She is of 3,000 tons register and is more than 10 years old. She was to have been withdrawn from service soon. She left Marseilles May 15 with 60 passengers and a crew of 60 for Constantinople and Smyrna, and probably took aboard passengers at other ports.

DUFFY BRIBERY CASE WILL COME UP NEXT

Former Inspector Sweeney to Face Graft Charges.

New York, District Attorney Whitman now plans to put Sergeant Peter J. Duffy on trial next. Duffy, who is alleged to have collected graft for Sweeney when he was in command of the Sixth police inspection district, is under indictment for bribery, a felony carrying a maximum penalty of fifteen years.

It is the district attorney's intention to move for Duffy's trial immediately. The district attorney, after Duffy's trial, expects to put Sweeney on trial for grafting and after him the other three convict inspectors.

The grand jury is soon to take up the question of graft collected in the Tenderloin by an inspector who formerly ruled there, much after the manner that Sweeney, Hasser, Martha and Thompson ruled in Harlem. This inspector not only profited through winking at violations of the law on the part of disorderly houses, gambling houses and saloons, but he shared in the profit of all "under" gambling games where everything was fixed for the victim to be fleeced.

This inspector is also said to have shared in the huge sums of money that wire tapper swindlers obtained from out of town men, and in his investigation of this inspector District Attorney Whitman has come across fresh evidence against a high police official whose chief sources of illegitimate revenue are the wire tappers and the fortune tellers who are permitted to evade the law.

New York, May 22.—Alec Rafter, who started for Winnipeg to make his fortune, is buried at sea, and his brother Thomas was in the Olympic hospital when she docked here, all because of two quarts of whiskey and a bet. Alec Rafter, 30, of 100 South Street, New York, was accompanied by another brother, Richard, made the voyage. As a parting gift Richard gave each of his brothers a quart of whiskey. Alec and Thomas later made a bet as to which could drink his quart of whiskey in the shortest time. Alec finished first with the bet, went to the hospital and died. While Thomas lay in the hospital Alec was buried at sea.

HUNDREDS RETURN TO WORK

Picket Line at the Price Mill Deserted
and Workers Go to and Fro Unmolested—Three I. W. W. Speakers
Fired by Their Own Organization
For Imprudent Utterances—Seven
Young Girls Sentenced to Jail.

Paterson, N. J., May 22.—There are signs that the silk strike is about to collapse. The weavers and dyers are said to be losing their enthusiasm and many things are being said about the agitators.

The strikers did not go on the picket line, and the workers at the Price mill, which granted the I. W. W. eight hour day and a 10 per cent increase, went to and from their work unmolested and the police had nothing to do. It is said that at least 700 or 800 of the 2,500 striking dyers in the Weldman and National plants have returned to work.

Adolph Leslie, chairman of the executive committee of the general strike committee, announced that three of the I. W. W. speakers, Fred S. Boyd, Robert Plunkitt and Herbert H. Harrison, had been fired. Complaint had been made by strikers that some of the speakers had been going too far in their denunciation of Paterson, and the elimination resulted.

At the Haleson meeting William Haywood, Pat Quinn and Miss Elizabeth Gurley Flinn were very conservative in their speeches. They advised the strikers to remain steadfast and stick to the picket lines.

As soon as Carlo Treves stepped off a train police headquarters was tipped off and officers arrested him. He was taken to the courthouse, where bail was fixed by Judge Kinnert at \$2,000 for his trial on an indictment for unlawful assembly. He was held in jail until bail was procured. He returned to New York at once.

Seven girls, including Hannah Silverman, a 15-year-old strike leader, and one man who were arrested while picketing at the Price mill, were arraigned before Recorder Carroll. All were sent to the county jail for 10 days excepting Hannah, who was committed for 60 days.

SONS OF VETERANS INITIATE CLASS

Ten new members were initiated by the Sons of Veterans at their meeting in Memorial hall Wednesday evening. The disagreeable weather prevented the large attendance expected.

Following the initiation and other business the men marched in a body to the Wonderland and Colonial theaters, where they were guests of Manager Johnson who had secured special films for the occasion, most of the films being thrilling war productions.

WORTHLESS CHECK WORKER ARRESTED

Vernon White was arrested by Chief McCoy Wednesday afternoon, charged with passing a worthless check on Henry Sparks of this city last November. He was lodged in the county jail to await further action of the authorities.

White is alleged to have presented a check for \$15, drawn on the New Holland bank and purporting to be signed by a citizen of that neighborhood. The check was cashed and later discovered to be worthless, whereupon the matter was placed in the hands of the police and they have watched for White since that time.

It is claimed White has been in the U. S. army at Columbus and that he was discharged without honor.

He was placed in the county jail after it had been vacant two hours, the first time it has been vacant in a great many months.

TRAINS TIED UP UNDER LABOR LAW

Four B. & O. freight trains, which had been out their full time limit, were tied up in this city Thursday morning, and it was necessary to secure other trainmen to take the trains on their journey.

Two of the trains were double headers and the other two were singles. The 16-hour limit being up it was necessary, in order to not lay themselves liable to fine, to stop at this point, which the trainmen did.

MONEY-MAKING JUNIORS

The Junior class of the High school is now busy making money so that they can hold the Junior-Senior banquet.

Today Druggist Christopher gives them a third of the proceeds from all soda water tickets they sell, and Saturday Druggist Baldwin donates the entire sale that they can make of soda water tickets. They also have other plans in view. Last year's lack of funds interfered with the Junior-Senior banquet and the disappointment still lingers in memory.

PHILLIES ADMINISTER A STINGING DEFEAT

REDS UTTERLY ROUTED

Phillies Get to Three Cincinnati Pitchers For Twenty Hits.
Philadelphia, May 22.—The Phillies battered hard today at Cincinnati and won 12 to 6. The Phillies batted for a total of 20 hits and 30 bases, including two home runs, a triple and three doubles. Cincinnati was never dangerous with bases empty. The Phillies' lineup was: Evers, leadoff; Cobb, second; Myers, third; Phyllis, fourth; Baker, fifth; Evers, sixth; Cobb, seventh; Myers, eighth; Phyllis, ninth. The Cincinnati lineup was: Evers, leadoff; Cobb, second; Myers, third; Phyllis, fourth; Baker, fifth; Evers, sixth; Cobb, seventh; Myers, eighth; Phyllis, ninth.

CHICAGO CUBS STRONG BEHIND THE BAT

Jimmy Archer, Star Backstop.

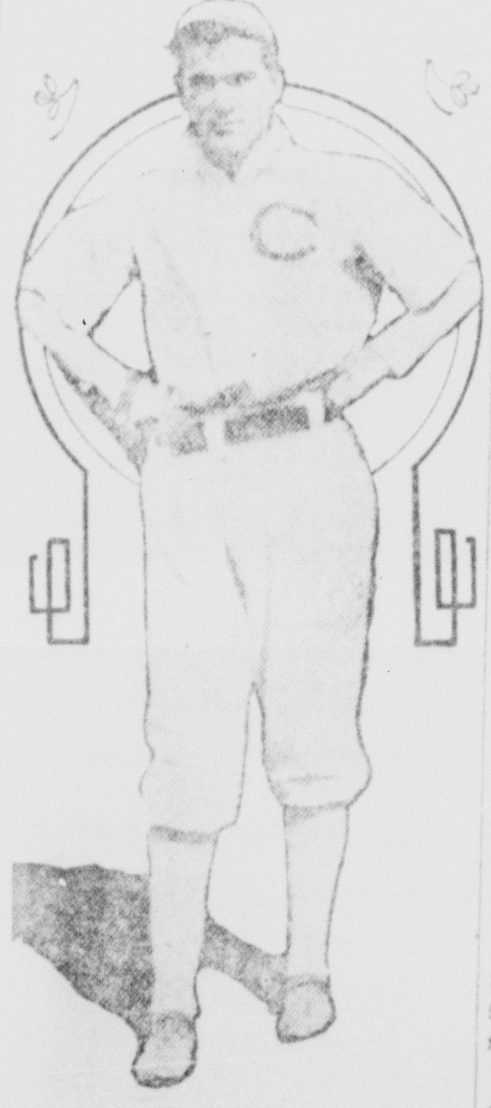

In Jimmy Archer the Cubs have one of the best catching artists who has broken into the game in a number of years. When Johnny Kling left the Cubs it was predicted that the team would be weakened in this department, but Archer made the Chicago fans soon forget Kling. Today the Cubs are well fortified behind the bat, having two high-class backstops in Archer and Roger Bresnahan. Johnny Evers has built up a fine ball team this season and the way in which the Cubs have been traveling indicates that they will be factors in the pennant fight. When opposed by a left-handed pitcher Manager John Evers has been putting Archer on first in place of Vic Sauer, as Archer can play the first bag up to the queen's taste.

and with Bresnahan to do the work behind the bat the Cubs would not be weakened any.

WHITE HAS SHUT-OUT HONORS

Chicago Twirler Holds Record for Blanking Foes, Not Jack Chesbro, Says Statistician.

George L. Moreland, the Pittsburgh baseball statistician, has found figures tending to prove that "Doc" Harry White of the Chicago White Sox established the world's record for consecutive runless innings for 45 innings and 10 outs.

"Doc" White.

not Chesbro for the Highlanders with 42 as recently contended. White shut out Cleveland, St. Louis, Detroit, New York and the Athletics in nine inning games in 1904.

SCHALK CAUSES A SENSATION

Former Milwaukee Backstop Is Considered by Yankee's Star as Best in American League.

Although he has been wearing a Chicago White Sox uniform but a short time Ray Schalk, the catcher secured from the Milwaukee club for \$10,000, is a reigning sensation. Ed Sweeney, the Hillmen's star backstop after seeing young Schalk work behind the bat, remarked:

"He's saying a lot, I know, but Schalk comes near being the best catcher in the American league today." Schalk is twenty years old. He was born in Harvard, Ill., of German parents, but his home is in Liverpool. He has been playing baseball for about three years and began last season with the Taylorville, Ill., club in the Illinois and Missouri leagues. Only a year ago he was in the employ of the Milwaukee American association club, but the young man caught several games and then recommended his purchase. The Milwaukee club bought him for \$1,000 and he caught in about thirty games before the season closed.

When the 1912 campaign opened Hugh Duffy, the Milwaukee manager, decided to make Schalk his regular catcher. The youngster quickly surprised the critics with his wonderful catching and throwing and as he proved steadily the major league scouts flocked to Milwaukee to look him over. Duffy put a price on the boy's release, \$15,000, but nobody seemed willing to pay it. After catching eighty games however Schalk had proved his worth to such extent that Comiskey offered \$10,000 in cash and two ball players and Duffy closed the deal.

Schalk is 5 feet 10 inches tall and weighs 170 pounds. He is a light-haired bright-eyed modest fellow, who doesn't seem to realize his importance.

Jimmy Callahan, manager of the White Sox, was so impressed with Schalk after he had seen him play a few games that he benched his veteran catcher, Billy Sullivan.

"Schalk cost a lot of money," said Callahan, "but he's worth it. I think he will develop into the best backstop in the country."

Larry Laine, the demon slugger of the Naps who it was reported, has gone back, is batting for an average of .336.

"Stoa Lajole and Jackson and you have ticked the props from under the Naps," says the American league manager.

Sam Agnew, the young Brown catcher secured by the St. Louis club from the Vernon club by the draft route, is making good.

Manager Griffith of Washington has trained his men to play Blackstone baseball, that is, to fight for every point and technicality.

That St. Louis club, National League, to rise up most any minute and hammer the stuffing out of the spher without any warning foot.

Howard Shank, the young outfielder of the Senators, claims that the Pirates and Washington will fight for the championship next fall.

Meiji university, Tokyo, has cabled to the University of Washington baseball nine an invitation to visit Japan and play a series of games.

The San Francisco club has been informed by the Detroit club that Oscar Vitt will not be sold at any price for the present at least, and Manager Howard is now looking elsewhere for a third baseman.

HUERTA ACCUSED OF HIGH TREASON

Formal Charges Made by For-
mer Mexican Congressman.

PENALTY MAY BE DEATH.

H. Barron, Former Madero Agent,
Forwards Document to Mexican
House of Representatives From New
York City Citing Grounds For Arti-
cles of Impeachment.

New York—Charges of rebellion and
reason, of usurpation of functions and
violence against prisoners have been
preferred against General Victoriano
Huerta, provisional president of Mex-
ico, by Heriberto Barron, who was
commercial agent at New York for
General Francisco Madero, constitu-
tional president of Mexico, who was
assassinated on the night of Feb. 22,
this year, when on the way, as Huer-
ta's prisoner, from the national pal-
ace to a prison on the outskirts of the
capital.

Senator Barron, formerly a member
of the Mexican congress from the

state of Chihuahua is now a resident
of this city. His charges have been
forwarded to the City of Mexico, and
they will be laid before the house of
representatives there. Accompanying
the charges is a petition urging that
General Huerta be impeached and sub-
jected to the penalty for his alleged
crimes, which is death under the con-
stitution of Mexico.

There are three separate counts in
Senator Barron's complaint and peti-
tion, and each count is supported by
quotations from the Mexican constitu-
tion and from the code of military
law.

General Huerta, it is alleged, was a
traitor from the time General Felix
Diaz got out of prison, making no ef-
fective use whatever of his troops,
finally sacrificing them in an impos-
sible attack on the Diaz forces, after
which he deposed President Madero
of the loyal troops guarding the pal-

Simple Lifers Bloom Out Like The Flowers of Spring, Tra-la

Photo by American Press Association.

YOU heard all about the "simple life" long ago, and, of course, you went
on living just as you always did. But over in "dear old London"
there is a set of "simple lifers" who are trying to get next to nature
in the classic way. This snapshot shows two of 'em in the street
garbed in flowing robes and wearing sandals. Their hair is done up in the
latest simple life style, and their robes are cut along the newest simple life
models. How do you like them? Naturally if you saw such "simple lifers" on
the street in your town you'd look twice. Even in sophisticated London, where
it is sometimes hard for the militant suffragettes to stir things up, these women
attract attention when they walk out.

ace, substituting for them the traitor
ous soldiers of General Blangnet.

Then, says Senor Barron, there were
several secret conferences between
General Huerta and the American am-
bassador, Henry Lane Wilson. One of
these conferences, it is averred, was on
Feb. 17, the very day before Huerta
and Blangnet came out in open revolt
and ordered the imprisonment and de-
tention in the national palace of Presi-
dent Madero, Vice President Jose M.
Pino Suarez, several members of the
cabinet, the governor of the federal dis-
trict and Congressman Gustavo Ma-
dono, a brother of the president.

The code of military law is quoted to
show that General Huerta was guilty
of rebellion and treason in that he
withdrew from the obedience of the
government, used his troops in hostility
to the government and incited a revolt.

The Mexican military code provides
the penalty of death for any officer
whose unnecessary violence against a
prisoner causes the death of the pris-
oner. On that count Senor Barron calls
for the death of Huerta because of the
assassination of Madero when in Hu-
erta's custody. It is alleged that the
statement which General Huerta gave
to the press and public regarding the
circumstances of Madero's death was
deliberately false.

In concluding his petition Senor Bar-
ron says:

"It is shameful for Mexico that even
for a few weeks there could have en-
dured a spurious government based
upon treason, usurpation and crime.
Mexico forms part of the civilized
world. Her social, commercial, literary
and other relations with the rest of the
universe oblige us to maintain before
other nations a decorous attitude, be-
cause in modern times there is not a

Invents Nonrefillable Bottle.

San Quentin, Cal.—With the time at
his disposal in the last eleven months
of his seven year term for burglary, E.
J. McCalla, a prisoner employed as a
waiter for the officers' table at the
prison here, has perfected a patent non-
refillable bottle device which he as-
serts will net him a fortune upon his
release two years hence. The device
can be fitted to any bottle.
